

**First-fit, Advanced Variable
Geometry (AVNT) turbochargers
incorporating engineering updates
for GM 6.6L Duramax Engines**

Aftermarket Turbochargers for GM 6.6L Duramax Engines

First Fit Turbochargers

Honeywell Aftermarket turbochargers incorporate the latest engineering updates for all Duramax engine model years providing a more robust unit.

The center housing has been enhanced, with the addition of 3 cobalt pins, in order to reduce distortion and improve vane actuation. As a result the durability of the turbocharger is improved.

Available for the following applications:

Model Year	GM Engine Code	GM Turbo Part Number	Garrett Turbo Model	Garrett Turbo Part Number	Garrett Aftermarket Service Turbo Part Number
2004-2010	LMM* (LLY**/LBZ)	97387896	GT3788VA	736554-0015	848212-5001S
		98011735		759622-0005	
		12639460		790032-0004	
2010-2016	LML	12642314	GT3788VA	800799-0002	848212-5002S
		12642129		800799-0003	
2010-2016	LGH	12640123	GT3582VA	785580-0006	848212-5003S
		12642130		800563-0002	

* The LMM is backward compatible with the LLY and LBZ engines, requiring stocking of 1 unit to service 2004-2010 model years.

** The LLY (MY 2004-2005) requires the 771864-0001 vane position sensor (VPS) adapter.

All units include the banjo bolt.
