Corpus Juris Secundum

Cited and quoted as authority in courtrooms across the country, C.J.S., a national legal encyclopedia, covers state and federal legal topics from A to Z. General rules of law are summarized in blackletter law headings and expanded upon in the text. The book also provides the limitations and exceptions to the rules where appropriate. Since the citations and the supporting cases involve both state and federal courts, the user gets a full perspective of the law in a local jurisdiction as well as across the country.

Restatements

Restatements (2d, and 3d) and Principles of the Law, with Appendices is part of the current Restatements of the Law and Principles of the Law series from the American Law Institute. In each restatement, the authors, who are noted scholars in their fields, state what they believe to be the consensus of American courts on particular points of law. Restatement topics are supplemented by annotations gathered in appendix volumes within the set. While restatements state the law as it is, principles examine and analyze legal areas thought to need reform, expressing the law as it should be. Restatements and principles provide authoritative sources of authority supporting a client's position.
